

# GSUSC Meeting: MINUTES

October 30, 2007

## 1. GPR at Santee State Park

- ◆ We will focus on interpreting the existing data for this semester.
- ◆ Adrian will give a presentation about existing work from Santee State Park project and GPR basics in next meeting (November).

## 2. Fall Trip

- ◆ Where: Smoky Mountains
- ◆ When: November 16-17, 2007 (Friday & Saturday)
- ◆ Why: We want to see climax of fall leaves and beautiful fall scenery.  
We want to know a little geology of Appalachian (e.g. Peridotite, Augen Gneiss, thrust faults, chevron folds)  
We want to have a little fun and know more each other at the outside campus
- ◆ Our company will be members of AAPG USC chapter

## 3. Others

- ◆ Invitation of lecturer: Dr. Ulrych in next spring at Seminar 800
- ◆ GSUSC webpage
  - GSUSC have our own server now!!: visit <http://129.252.31.20/GS-USC/home.html> and see the update our website
- ◆ We will manage our fund in Ed Foundation Account in our department in order to reduce extra-costs causing opening a bank account.
